

Cam-Type Products

Power Temp Systems proudly offers cam-type locking single pin plugs and connectors on all standard products that require this type of connection. These quality connectors are fast and easy to assemble and disassemble with simple hand tools. They have a NEMA Type 3R and 4 environmental rating. They are both UL and CSA listed (400A / 600V # 6 to # 4/0), and mate precisely with all cam-type devices.
